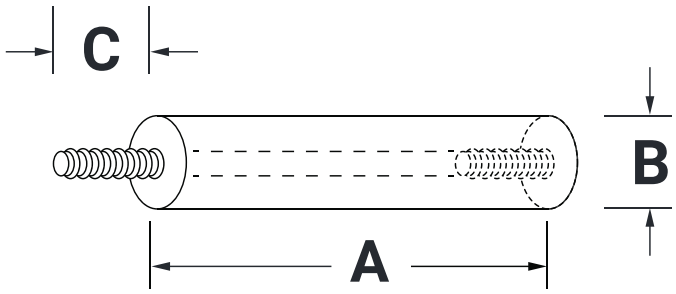
CASTING ALLOYS LTD.

Heater Treater Anodes

Heater Treater Anodes are important components that protect production vessels from corrosion. Purity Casting Alloys offers several sizes that are designed for this application. Available in both Aluminum and Zinc, these anodes have a proven track record and deliver efficient protection.



Standard Dimensions and Weights

Anode Type	Nominal Dimensions - In. (mm) A	B	C	Weight Aluminum (lbs)	Weight Zinc (lbs)	Core NC Rod
PCA21HT	21 (533.4)	3 (76.2)	1 (25.4)	13	38	5/8”
PCA30HT	30 (762)	3 (76.2)	3 – 3.5 (76.2–88.9)	20	50	3/4”
PCA45HT	45 (1143)	3 (76.2)	3 – 3.5 (76.2–88.9)	30	75	3/4”
PCA60HT	60 (1524)	3 (76.2)	3 – 3.5 (76.2–88.9)	40	100	3.4”
